

ANCHOR

Pathways
from
Homelessness

Hello. We Are Anchor.

**Anchor is a purpose-driven organisation
transforming the lives of Victoria's most vulnerable.**

We provide comprehensive services, from foster and kinship care for children in the child protection system, to vital support for at-risk youth transitioning out of state care or homelessness. Our work also extends to immediate homelessness services for individuals in urgent need.

With more than four decades of experience, we understand the deep, intergenerational challenges—poor relationships, mental health struggles, and systemic disadvantage—that fuel homelessness.

We tackle these issues through evidence-based programs that lead to real, measurable outcomes. In our Youth programs, in particular, we've seen significant shifts in attitudes and outlooks of young people, proving we're on the right track.
